

## **PEROXAN DB**

## Dialkyl peroxide / Curing

**Description** Di-tert-butyl peroxide

98%, Liquid

PEROXAN DB is used for the curing of unsaturated polyester resins and polymerization of styrene alkyde mixtures.

Molecular weight: 146.2 CAS No.: 110-05-4

Technical data Appearance: clear liquid

Peroxide assay: min. 98%
Active oxygen assay: min. 10.72%
Density at 20°C: 0.8 g/cm³

**Solubility** not determined

Storage Maximum storage temperature (Ts max): 40°C

Storage stability as from date of delivery: 6 months

Hazardous reactions Keep packaging tightly closed in a well ventilated place at indicated storage temperature. Keep away from

reducing agents e.g. amines, acids, alkalis, heavy metal compounds (e.g. accelerators, driers, metal soaps).

Never weigh out in storage room.

Oxidizing agent. Decomposes violently under the influence of heat or by contact with reducing agent. Never mix

with accelerators.

Organic Peroxides are more or less stable products but will decompose under the influence of heat. To minimize a loss of quality during storage, it is important that the recommended maximum storage temperature is not exceeded. If a minimum storage temperature is given, an undesirable process such as a solidification or phase

separation, is known to occur below this temperature.

Safety characteristics Flash point:

SADT: 80°C

The SADT (Self Accelerating Decomposition Temperature) is the lowest temperature at which a self accelerating decomposition may occur.

## **PEROXAN DB**

## Dialkyl peroxide / Curing

**Application** PEROXAN DB is used for the curing of unsaturated polyester resins at elevated temperatures, in

the temperature range from 120° to 160°C. Due to its high volatility, PEROXAN DB requires strict

precautions in handling and metering.

Furthermore, PEROXAN DB is used in polymerization of alkyde styrene resins.

Depending on working conditions, the following peroxide dosage level is recommended:

PEROXAN DB: 1,0 to 1,5 phr

Packaging 20kg container

154kg drum

Safety and handling Please refer to the material safety data sheet (MSDS) for information concerning safe storage, use and handling

of PEROXAN DB. This information should be thoroughly reviewed prior to acceptance of this product. The

MSDS is available for downloading at www.pergan.com or through contacting Pergan directly.

The information presented herein is true and accurate and to the best of our knowledge, but without any guarantee. Since the conditions of use are beyond our control we disclaim any liability, including for patent infringement, incurred in connection with the use of these products, data or suggestions.
